

Android Mobile Email

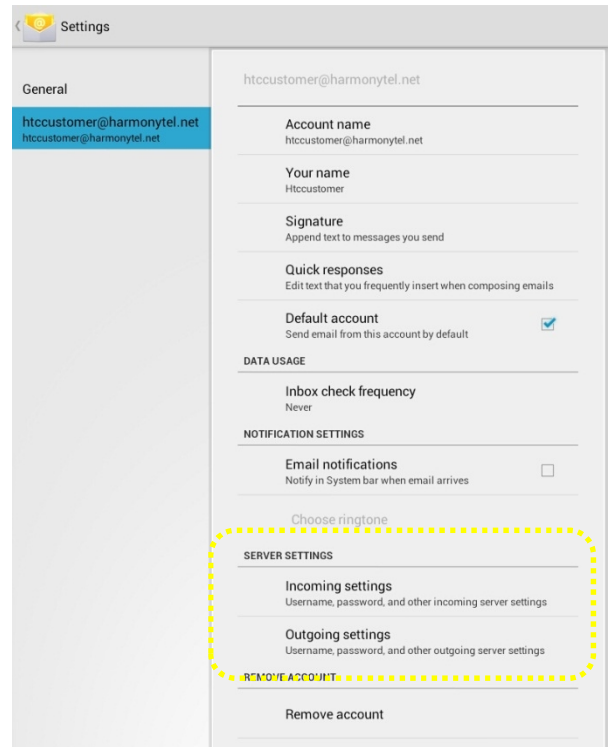

Open your email app on your mobile device.

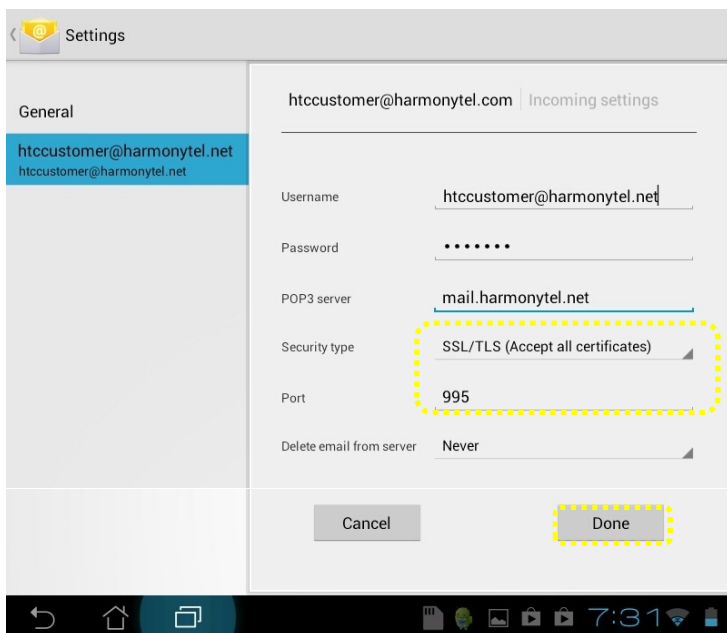

Click the three dots in the top corner for the Settings.
(or your menu button on your phone)

Click on your Harmonytel email.

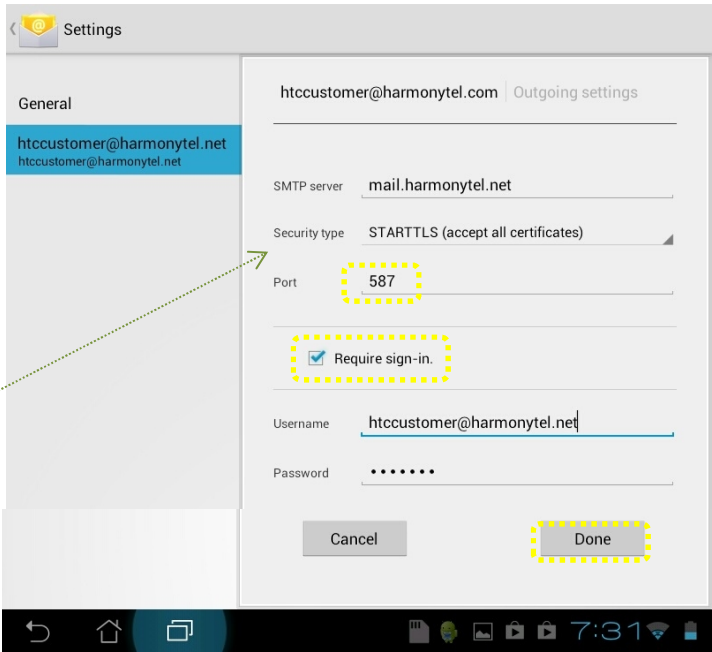

Change User Name to your full email address.

Under the Advance, change Incoming Settings.
Click Done at the bottom.

Under Outgoing Mail Server
change Outgoing Settings
(User Name should be full email address)

Security Type needs to be set to 'accept all
certificates'

Click Done.
Once it's done you can close out of your settings and
go to the Inbox in your Email App and sync.
